Understanding America Study**

**Coronavirus Tracking Survey  
Methodology and Selected Topline Results**

**UAS 264 – Wave 15  
September 30 – October 27, 2020**

**October 29, 2020 Release**

## Methodology

On April 1, 2020, USC's Center for Economic and Social Research (CESR) invited all active members of CESR's Understanding America Study (UAS 264) probability-based internet panel to participate in an ongoing coronavirus tracking survey.

This methodology and topline is associated with participants in Wave 15 of the tracking survey, administered from September 30 to October 27, 2020.

## Sample Information

A total of 6,025 adult residents of the U.S. participated in this wave and are included in the final UAS264 data file. Margin of sampling error for the full sample is +/-1.

A total of 7,769 panel members were eligible to be included in the weighted sample, resulting in a participation rate of 78% for this wave. The sample includes 136 who started but did not complete the survey.

Panel members included in the raw data (available upon request) but excluded from the weighted sample files were recruited via listed sample for a specific project and are not included in the topline estimates, or in the associated data files.

Specific sample sizes and sampling error information for subsamples are provided in the topline and crosstab tables. Sampling error calculations are at the 95% confidence level. Factors other than sampling error may affect results of any survey, including question wording, question order, mode, sample type, population coverage, and impact of current events.

## Tracking Survey Design

Each panel member is randomized to respond on a pre-assigned day of the week, distributed so that our full sample is invited to participate over a 14-day period. Respondents have until their next assigned wave day (or 14 days) to complete the survey but receive an extra \$1 incentive for completing the survey on their assigned day. Most respondents participated on their assigned day of the wave, between September 30 and October 13, 2020, and earned the bonus incentive. The rest of the sample completed the survey after their assigned day but within their allotted 14-day window. Data for the full sample is thus not final until the end of a 28-day period, in this case October 27. Microdata files are released after each full wave.

Los Angeles County residents are invited to participate once a week, alternating between a long form survey which is administered to everyone across the country every two weeks, and a short-form survey administered only to LA County residents every two weeks. For the subset of long form and short form survey questions that are identical, data for the full LA County sample is final after a 21-day period, as LA County residents are given a week to respond to each survey. LA County sample files are available from [uasdata.usc.edu/page/Covid-19+Home](https://uasdata.usc.edu/page/Covid-19+Home).

Interactive graphic results: The survey design allows us to provide daily updates to graphs on our tracking survey website [Covid19Pulse.usc.edu](https://Covid19Pulse.usc.edu). These are refreshed just after 3am PST every day of the week. On the site, the viewer can choose to view aggregated results from our national sample, and from our California and Los Angeles County sub-samples. The graphs may be run for overall results, or among categories of age, race/ethnicity, gender, education, and income, when sample size allows. We provide the aggregated data used to create the graphics in csv format, and the graphics files themselves are downloadable in several formats.

Survey questionnaires, topline, microdata files, and a press room are available on our UAS Covid19 data site at [uasdata.usc.edu/page/Covid-19+Home](https://uasdata.usc.edu/page/Covid-19+Home)

## Questionnaire

Survey wording and question text are provided in this topline release, but for full wording including context, please refer to the associated codebook and questionnaire. For most questions, we rotated the order of response options, and/or questions to average out order effects. Respondents participated via computer, mobile device or tablet, at any time of day or night during the field period. The survey was conducted in the respondents' choice of English or Spanish.

Topline reports, codebook, and questionnaires associated with this release are available without need for registration at <https://uasdata.usc.edu/page/COVID-19+Corona+Virus>.

## Weights

The method for creating sample weights for the tracking survey follows the general procedure for UAS surveys described in [CESR's online methodology documentation](#). Sample weights are constructed in two steps. First, we calculate a base weight that corrects for unequal probabilities of selection of different households into the UAS. Second, we generate post-stratification weights, which align sample distributions of key demographics, namely gender, race/ethnicity, age, education, and geographic location, with their population counterparts. Population benchmarks are derived from the Basic Monthly Current Population Survey (CPS). The provided sample weights bring the sample in line with the U.S. adult population, if the entire sample is used. The sample weights also provide alignment with the population of Los Angeles County residents, California residents excluding Los Angeles County, and U.S. excluding California, if these geographic sub-samples are selected.

## About the Understanding America Study Internet Panel

The Understanding America Study (UAS) is an ongoing national research panel that started in 2014. We recruit panel members in waves from Marketing Systems Group frames of all household addresses in the United States. To ensure full coverage of the U.S. population, we provide internet-connected tablets to households that were not already online. Our panel includes U.S. residents who have cell phones, landlines, or no phone at all. It also includes a small number of respondents recruited from a listed sample, these participants are not included in weighted samples. Panel members are compensated for their participation.

For more information about the UAS panel, including weighting details; panel sampling procedures; recruitment protocols, survey and recruitment response rates; panel attrition rates; panel management protocols; and microdata files (including nonresponse and paradata), please visit the Understanding America Study panel website at <https://UASdata.usc.edu>.

## About the Center for Economic and Social Research

The Center for Economic and Social Research (CESR), part of the USC Dornsife College of Letters, Arts and Sciences, conducts basic and applied research in economics, psychology, demography, education, and sociology. The center's name signifies the breadth of the research, which encompasses numerous disciplines, topics and methodologies. The Center's multi-disciplinary philosophy fosters a productive and innovative research environment focused on understanding and informing important societal issues.

## Survey Team

**Arie Kapteyn** Ph.D., is Professor of Economics and the Executive Director of the Dornsife College of Letters Arts and Sciences Center for Economic and Social Research at the University of Southern California.

**Daniel Bennett** Ph.D., is Assistant Professor (Research) of Economics at the Dornsife College of Letters Arts and Sciences Center for Economic and Social Research at the University of Southern California.

**Kyla Thomas** Ph.D., is a Sociologist at the Dornsife College of Letters Arts and Sciences Center for Economic and Social Research (CESR) at the University of Southern California.

**Jill E Darling**, MSHS, is Survey Director for the Understanding America Study at the Center for Economic and Social Research at the University of Southern California.

For questions about this survey, please contact [uas-l@usc.edu](mailto:uas-l@usc.edu)

The USC Dornsife Center for Economic and Social Research is a proud member of the American Association for Public Opinion Research's [Transparency Initiative](#). The survey was funded by the USC Dornsife College of Arts, Letters and Sciences, the Bill & Melinda Gates Foundation, and many other donors.

## Topline Report

**Survey dates** September 30 to October 27, 2020

**Sample size** 6,025 Adult U.S. Residents

This report provides the sample characteristics for the UAS 262 weighted national sample, as well as brief summaries of responses to the questions included in the data file. Full questionnaires, longitudinal and single data files, and other survey and panel information are available at [UASdata.usc.edu](https://UASdata.usc.edu).

## National Sample Characteristics

The table below summarizes select characteristics of the full National sample, with and without survey weights.

	National unweighted	National weighted
Male	42%	48%
Age(18-34)	17%	24%
Age(35-54)	37%	38%
Age(55-64)	21%	18%
Age(65+)	24%	20%
Low education (HS or less)	21%	37%
Medium education (Some College)	36%	27%
High education (College degree)	43%	35%
HH income (\$0-24,999)	19%	22%
HH income (\$25,000-49,999)	22%	23%
HH income (\$50,000-74,999)	19%	19%
HH income (\$75,000 and above)	40%	36%
Non-Hispanic White	68%	63%
Non-Hispanic Black	8%	12%
Non-Hispanic Asian	5%	5%
Non-Hispanic Other	5%	3%
Hispanic/Latino	14%	17%

Please refer to the topline results reported in the attached document for question-specific sample sizes and margins of sampling error. All differences among subgroups reported in media releases that use this data are tested for statistical significance.

## Topline Tables

Thank you for agreeing to participate in our ongoing survey which focuses on the impact of the novel coronavirus (COVID-19). We will send you a reminder to check in once every fourteen days, on [day of the week], to let us know how the coronavirus epidemic is affecting you. Most of the questions in this survey were asked in previous surveys. Thank you for answering them accurately again, to ensure we always have the most updated information.

### 1. COVID-19 Symptoms, Testing, and Medical Care

<b>cr001: Have you experienced any of the following symptoms in the past 7 days?</b>					
	<b>1 Yes</b>	<b>2 No</b>	<b>3 Unsure</b>	<b>Obs</b>	<b>MOSE</b>
cr001a: Fever or chills	1.6	97.4	1.0	6066	+/- 1
cr001b: Runny or stuffy nose	17.8	81.4	0.8	6068	+/- 1
cr001c: Chest congestion	3.5	95.7	0.8	6069	+/- 1
cr001d: cough	10.2	88.8	1.0	6066	+/- 1
cr001e: Sore throat	5.8	93.2	0.9	6068	+/- 1
cr001f: Sneezing	17.3	81.9	0.8	6068	+/- 1
cr001g: Muscle or body aches	13.6	85.6	0.8	6068	+/- 1
cr001h: Headaches	15.3	83.7	0.9	6061	+/- 1
cr001i: Fatigue or tiredness	18.1	80.8	1.1	6065	+/- 1
cr001j: Shortness of breath	5.6	93.6	0.8	6069	+/- 1
cr001k: Abdominal discomfort	5.9	93.1	1.0	6068	+/- 1
cr001l: Vomiting	1.0	98.2	0.8	6067	+/- 1
cr001m: Hair Loss	2.9	95.5	1.6	6067	+/- 1

**cr070: We would like to learn your general opinion about wearing a mask or face covering. Do you agree or disagree with each of the following statements?**

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Obs	MOSE
cr070a: Wearing a mask helps keep me safe from coronavirus	5.7	9.3	20.6	34.2	30.2	6049	+/- 1
cr070b: Wearing a mask helps keep others safe from coronavirus	5.0	5.1	16.8	35.1	38.0	6052	+/- 1
cr070c: Wearing a mask is dangerous to my health	46.4	26.9	17.4	6.5	2.8	6050	+/- 1
cr070d: Wearing a mask is a political statement	44.8	23.2	19.5	7.6	4.9	6049	+/- 1
cr070e: Wearing a mask is not needed because I am not infected	45.4	28.4	18.3	4.8	3.1	6052	+/- 1
cr070f: Wearing a mask is not needed when I am with other people who are healthy	35.6	29.7	21.5	9.7	3.4	6047	+/- 1
cr070g: Others may feel threatened if I cover my face	40.8	34.2	19.9	4.1	1.0	6050	+/- 1
cr070h: I keep enough distance so that I don't need a mask	34.3	30.5	23.2	9.6	2.4	6048	+/- 1
cr070i: We live in a free country and no one can force me to wear a mask	32.7	21.0	25.4	14.0	7.0	6051	+/- 1
cr070j: I would like to wear a mask, but I cannot afford to buy one	64.4	24.6	9.7	0.7	0.7	6051	+/- 1
cr070k: Wearing a mask is unnecessary because coronavirus is not a serious threat to people	50.5	26.7	17.0	3.6	2.2	6051	+/- 1
cr070l: A mask is too uncomfortable to wear	31.3	27.4	21.0	14.8	5.5	6050	+/- 1

**cr016: Which of the following have you done in the last seven days to keep yourself safe from coronavirus?**

	1 Yes	2 No	3 Unsure	Obs	MOSE
cr016p: Worn a mask or other face covering	89.4	9.1	1.5	6040	+/- 1
cr016o: Worked or studied at home	43.2	54.0	2.8	6042	+/- 1
cr016m: Avoided eating at restaurants	59.9	38.2	1.9	6043	+/- 1
cr016l: Prayed	56.4	40.7	2.8	6042	+/- 1
cr016k: Avoided public spaces, gatherings, or crowds	69.4	28.4	2.2	6039	+/- 1
cr016j: Avoided contact with people who could be high-risk	76.0	17.1	7.0	6043	+/- 1
cr016g: Visited a doctor	13.9	84.5	1.6	6041	+/- 1
cr016b: Washed your hands with soap or used hand sanitizer several times per day	91.9	6.8	1.3	6044	+/- 1

**cr017a: Are Federal, state, or local governments currently encouraging you to limit non-essential travel?**

	1 Yes	2 No	3 Unsure	Obs	MOSE
cr017a: Encourage limiting non-essential travel	42.6	36.9	20.4	6044	+/- 1

**cr018a: Are Federal, state, or local governments currently requiring you to limit non-essential travel?**

	1 Yes	2 No	3 Unsure	Obs	MOSE
cr018a: Require limiting non-essential travel	18.4	61.2	20.4	6042	+/- 1

**cr019: How effective are the following actions for keeping you safe from coronavirus?**

	Extremely Ineffective	Somewhat Ineffective	Somewhat Effective	Extremely Effective	Unsure	Obs	MOSE
cr019a: Wearing a face mask such as the one shown here	4.8	6.0	30.7	51.0	7.5	6026	+/- 1
cr019b: Praying	19.9	7.3	20.2	35.8	16.9	6022	+/- 1

cr020k: Going outside to walk, hike, or exercise	45.3	39.8	8.7	1.4	4.8	6022	+/- 1
cr020l: Eating or drinking in a place that provides table service and has implemented so	5.6	37.5	37.9	12.8	6.1	6024	+/- 1
cr020m: Curb-side pick-up of store purchases	15.0	58.3	18.7	2.2	5.8	6022	+/- 1

**cr021: We would like to ask about your family, as well as your close friends. How many family or close friends do you have? Only include people who are still alive, regardless of where they live.**

	Mean	Obs	MOSE
cr021: how many family or close friends	36.0	6000	+/- 1

**cr022: [if [number of friends] > 0] Of these people, how many do you think have been infected with the coronavirus?**

	Mean	Obs	MOSE
cr022: infected how many family or close friends	1.4	5903	+/- 1
cr022b: died how many family or close friends	0.1	5901	+/- 1
cr022a: hospitalized how many family or close friends	0.3	5901	+/- 1

**cr022a: [if [number of friends] > 0] You said that you have [number of friends] family and close friends. Of these people, how many do you think have been hospitalized (spent at least one night in the hospital) from the coronavirus?**

	Mean	Obs	MOSE
cr022a: hospitalized how many family or close friends	0.3	5901	+/- 1

**cr022b: [if [number of friends] > 0] You said that you have [number of friends] family and close friends. Of these people, how many do you think have died from the coronavirus?**

	Mean	Obs	MOSE
cr022b: died how many family or close friends	0.1	5901	+/- 1

### 3. COVID-19 Risk Perceptions

**cr023: On a scale of 0 to 100 percent, what is the chance that you will get the coronavirus in the next three months? If you are not sure, please give your best guess.**

	Mean	Obs	MOSE
cr023: chance get coronavirus in next 3 months	22.1	6014	+/- 1
cr023b: chance hospitalized if get coronavirus	22.2	6015	+/- 1

**cr023b: If you do get the coronavirus, what is the percent chance you will be hospitalized (spend at least one night in the hospital) from it? If you are not sure, please give your best guess.**

	Mean	Obs	MOSE
cr023b: chance hospitalized if get coronavirus	22.2	6015	+/- 1

**cr024: If you do get the coronavirus, what is the percent chance you will die from it? If you are not sure, please give your best guess.**

	Mean	Obs	MOSE
cr024: chance die from coronavirus	17.6	6012	+/- 1

**cr025: Do you agree or disagree with the following statements about childhood vaccines?**

	Strongly Disagree	Disagree	Agree	Strongly Agree	Obs	MOSE
cr025a: have many known harmful side effects	29.1	43.2	22.4	5.4	6009	+/- 1
cr025b: Provide important benefits to society	2.4	5.0	41.5	51.1	6007	+/- 1

**vc002: In what order do you think these groups of people should be vaccinated, after health care workers and nursing home workers? We already placed a "1" next to the group you already selected to go first. Please add 2, 3, 4, and 5 to indicate how you would order the remaining groups.**

	1 1	2 2	3 3	4 4	5 5	Obs	MOSE
vc002a: rating high risk people in group housing	48.9	28.6	12.2	7.3	3.0	5970	+/- 1
vc002b: rating high risk people live with families	29.2	42.1	17.0	9.1	2.6	5959	+/- 1
vc002c: rating people more likely to spread	10.7	13.7	33.6	34.6	7.3	5957	+/- 1
vc002d: rating people who live in areas with more COVID-19 infections	10.3	12.8	33.5	39.7	3.7	5946	+/- 1
vc002e: rating people who are selected randomly through a lottery	1.7	2.8	3.8	9.1	82.6	5924	+/- 1

**vc003: How much did you think of the following when selecting the order in which people should get the vaccine?**

	1 1 Not at all	2 2	3 3	4 4	5 5 Very much	Obs	MOSE
vc003a: thought about fairness	12.4	7.5	21.4	20.1	38.7	5987	+/- 1
vc003b: thought about reducing numbers getting infected	7.2	7.4	24.7	23.1	37.6	5991	+/- 1
vc003c: thought about reducing numbers dying	5.2	4.3	16.3	22.0	52.3	5994	+/- 1

**vc004: Are you in one or more of these groups?**

	<b>1 Yes</b>	<b>2 No</b>	<b>Obs</b>	<b>MOSE</b>
vc004a: in group of people high risk in group housing	11.2	88.8	5994	+/- 1
vc004b: in group of people high risk with families	29.4	70.6	5993	+/- 1
vc004c: in group of people more likely to spread	22.9	77.1	5991	+/- 1
vc004d: in group of people in areas with more infections	20.9	79.1	5995	+/- 1

**vc005: Suppose you are not selected to get the vaccine first. Instead, the vaccine first goes to health care workers and nursing home workers and then to [insert random group]. If this were to happen, what would you do?**

	<b>1 Yes</b>	<b>2 No</b>	<b>Obs</b>	<b>MOSE</b>
vc005a: I would get the vaccine once it becomes available to me	61.9	38.1	5990	+/- 1
vc005b: I would complain or protest	6.6	93.4	5994	+/- 1
vc005c: I would avoid crowds and engage in social distancing as long as I was unvaccinated	75.3	24.7	5998	+/- 1
